FRUIT GROWERS, ATTENTION

If you are having trouble with diseases or with insect pests in your vineyards or orchards, write the Missouri State Fruit Experiment Station at Mountain Grove, for help. In all cases send specimens of the insects, diseased leaves, twigs or fruit so that the trouble can be positively identified and a remedy suggested. In some cases control depends on cutting out and burning affected parts; in others, on spraying and cultivation. There is no need, however, of letting pests of all kinds take your crop, so let us know your troubles. Reply will be sent promptly to any inquiries received.

The Fruit Station was established to help Missouri fruit growers and its services are free.

VILLA HASTENING PLANS FOR ZAC- ATECAS ATTACK

Railroad Repaired and Campaign Toward the South Will Be Resumed

El Paso, Tex., May 27.—Reports from the South today said Gen. Villa's forces were hastily preparing for an assault on Zacatecas City, capital of Zacatecas state. It was asserted that the railroad from Torreon, Villa's concentration point, had been repaired nearly to the next point of attack.

Troops in large numbers had been sent south along the repaired railroad and all possible reinforcements have been rushed into Torreon from Saltillo, recently taken by the Constitutionalists. The latest to arrive was the command of Gen. Pablo Robles, number 3,500, originally left to garrison Saltillo.

It was explained that the attack on San Luis Potosi had been postponed because of the destruction of the railroad to the south of Saltillo.

CONSIGNMENT OF AMMUNITION FOR HUERTA'S GOVERNMENT

Washington, May 27.—Ammunition consigned to the Huerta government in Mexico which had been kept in the hold of the German steamship Ytiranga ever since the occupation of Vera Cruz was reported to have been landed today at Puerto Mexico. Consul Canada at Vera Cruz cabled this information to the state department and it also was reported from other sources to the war department that arms consigned to Huerta had been landed at Puerto Mexico from the German steamer Bavaria.

Rear Admiral Badger cabled the navy department from Vera Cruz tonight the steamship Ytiranga discharged her cargo at Puerto Mexico yesterday afternoon.

No effort to prevent the delivery of the consignment was made by officials of the United States, Puerto Mexico being an open port.

WASHINGTON DENIES INFORMATION

Washington, May 27.—Rumors and reports from diplomatic sources in Mexico City that Huerta was making preparations to leave continued to reach Washington. One report said Huerta was trying to make arrangements to leave provided he could do so with dignity.

The State and War Department officials denied knowledge of any actual plans having been made by the Mexican dictator to leave his country.

Gilf Adams of Butterfield township was in the city Wednesday and Thursday attending the Masonic meeting. Judge Adams has for the past 50 years been a resident of Barry and adjoining counties and is at present justice of the peace of Butterfield township.

Four cars of berries were shipped last night in addition to the express shipments. The berries are still large and fine and the price has held up remarkably well, \$2.50 being paid on track for nearly all the car shipments. The rain last night will bring out all late berries and the season will run several days longer.—Neosho Democrat.

This is another instance to prove that Barry county is among the leading agricultural counties of the state.—Cassville Republican.

COURT HOUSE ABOUT COMPLETED

The new court house will soon be completed. With the exception of a few days' work in painting, and laying the floors the interior part of the building will be finished. The building will be practically fire proof, a kind of a structure that will give the taxpayers the assurance of having all the county's records, valuable papers, etc., in safety. Nothing but first class material has been used, which makes it very substantial.—Cassville Republican.
